RAILWAY MEN GET ADVANCE

**Benefits all Southern Pacific
Employees in Oregon**

**Engineers and Firemen Will
Sign a New Scale**

Portland, Jan. 3.—Nearly 300 rail-
road men on the Oregon lines of the
Southern Pacific have received a New
Year's present in the shape of a no-
tice of an advance of pay. The loco-
motive engineers have signed up a
new contract, under which they re-
ceive increases ranging from 6 to 10
per cent. In a few instances the in-
crease is even above 10 per cent.
More than 200 men are affected by
this order.

About 30 boilermakers, whose stand-
ard of pay has been 35 cents an hour,
are hereafter to receive 36 1/4 cents an
hour.

Eighteen switchmen employed in the
four yards of the Southern Pacific's
Oregon lines—Portland, Rose-
burg, Ashland and Dunsmuir—have
received a material advance of pay,
dating from January 1st. Manager
Koehler's circular announces that
these men, who have been receiving
\$75 a month, shall hereafter receive
\$82.50 to \$85.25 per calendar month.
The yardmaster in each of the four
yards receives an advance from \$100
to \$110.

All the firemen are trying to get a
new scale, and it is not doubted that
they will be successful. They usually
receive about 55 per cent of the pay
of the engineers. Their advances will
be of about the same proportion as
that of the engine drivers. There are
about 250 firemen on the Oregon lines.
These advances are understood to
extend over the entire Southern Pa-
cific system west of El Paso, though
the notice here covers only the Oregon
lines, which have their headquarters
at Portland.

The Powers' Decision

In the divorce suit of Hattie L.
Powers vs. Guy M. Powers, Circuit
Judge Boise did not pass on the prop-
erty rights involved, but held that
such question must be determined in
another action. After hearing the evi-
dence in the case, Judge Boise gave
a decree of divorce in accordance
with the complaint of the plaintiff's.
The effect of the decree gives Mrs.
Powers property to the amount of
about \$2400, upon which there is a
mortgage indebtedness of \$750.

PRESENTS T'OTHER SIDE

**Mitchel States Cause
of Coal Famine**

**Claims Large Numbers of
Miners Daily Apply**

**And Are Refused the Privi-
lege of Working**

Detroit, Jan. 3.—President Mitchell,
of the United Mine Workers, today
issued a statement regarding the min-
ers' not working through the holidays,
and says that they have always taken
holidays, and didn't know that they
were expected to work. He says the
charge of ingratitude toward the pub-
lic is being made against them by
those who would malign them, seeking
to divert attention from the real cause
of the coal famine. He closes as fol-
lows: "The truth is several thousand
miners have been refused the privilege
of working at all since the close of
the strike, although they have daily
importuned the companies to permit
them to return to their places occu-
pied prior to the inauguration of the
strike."

Supreme Judge Shiras to Remain.

Washington, Jan. 3.—Justice Shiras,
of the supreme court, has been per-
suaded to defer his retirement for a
year, in order to allow Governor Taft,
who is to be his successor, to remain
a year longer in charge of the Philip-
pines. This announcement was made
today by a prominent business man of
Manila, after a conference with Sec-
retary Root.

FOREST FIRE VICTIM

**Suffering Agonies for Want
of Surgical Treatment**

**Relief Committee Has Taken
Her Case in Hand**

Portland, Jan. 3.—Effie Wolf, who
was caught by flying embers during
the forest fire that raged so many days
last autumn still lies screaming in ag-
ony at her home near Dover. She
was burned so terribly that the
only position she can assume
is lying flat on her face. And
to add to the wretchedness of her
plight, her doctor has advised her pa-
rents, reported to be ignorant Ger-
mans, not to permit her to be brought
to a city hospital for treatment. But
now the women of the Fire Relief
Committee, who have been contribut-
ing money to aid her, are trying to
have her removed to a place where
proper care can be given.

Miss Wolfe, who is only 18 years
old, met her misfortune while fighting
fire. The strong wind carried huge
coals through the air, and in some
way her dress caught, flamed up, and
before a small boy and some friends
could extinguish it left her limbs
burned to a crisp. Since that time she
has had to endure unrelieved pain.
No nurse has soothed her; she has
had only the ministrations of parents,
who are said to have more than once
compelled her to rise and walk,
though every step was marked with
blood. At last the neighbors have be-
come enraged at this treatment and
with them Mrs. R. V. Pratt, Mrs.
Meade, Mrs. Cressey and Mrs. Harry
Hogue are co-operating to bring the
girl in where at least she may have a
chance for her life.

The Fire Relief Committee has al-
ready sent money and clothing to the
home, and at no time has Miss Wolfe
been forgotten. Now, after trying or-
dinary measures, it is felt that the
time has come to use every means
possible to protect Miss Wolfe, and
save her useless suffering.

Dangerous Toy Guns.

Norfolk, Va., Jan. 3.—Ten deaths of
children have occurred here from
lockjaw since Christmas. A toy pistol
with a new kind of chemical explosive
cap is said to have been the cause.

Claud Gatch and family have re-
turned from Corvallis, where they
spent the holidays.

VIOLATED NEUTRALITY LAW

**Grave Charges Against
American Captain**

**Assisted German Gunboat to
Capture Venezuelan Vessel**

**By Pre-arranged Understand-
ing of a Given Signal**

New York, Jan. 3.—Captain Terrell,
of the Red D line steamer Culata, has
been suspended from duty, charged
with having violated the neutrality
laws, and with the alleged responsi-
bility of having given a German gun-
boat information which led to the cap-
ture of the Venezuelan gunboat Mi-
randa, December 20th, in Maracaibo
harbor. The investigation that is be-
ing made may lead to strained rela-
tions between the United States and
Venezuela, as the Venezuelan consul
has notified President Castro of the
facts, and made a formal protest. The
story is that the Culata received per-
mission to land passengers, and made
an arrangement of signals whereby
the German gunboat Panther knew if
the Miranda was in port; that when
she sailed out she lowered her stern
lights. The Panther immediately
rushed in and made the capture.
Captain Terrell denies the charge.

Italy Takes No Interest.

Rome, Jan. 3.—The European com-
missioner to the St. Louis exposition
has failed to induce Italy to agree to
an exhibit. Ambassador Meyer is try-
ing to re-open negotiations.

DEATH OF KING GEORGE

**Of Saxony Is Hourly Ex-
pected**

Berlin, Jan. 3.—It is reported this
morning that King George of Saxony
is slowly sinking. His physicians say
that his death may outdistance the di-
vorce courts, thus leaving the erring
Princess Louise a queen.

Topsy Will Be Executed

New York, Jan. 3.—Topsy, the big
elephant, who has killed more men
than any other elephant now in cap-
tivity, will be executed at noon tomor-
row. She held 500 men at bay five
hours yesterday. The owners tried to
give her away, but failed.

UNCLE SAM IS WEARY

**Of Bickering Over
Panama Canal**

**Has Sent Colombia an Ulti-
matum to Act Quickly**

**Or Nicaraguan Route Will
Be Chosen**

Washington, Jan. 3.—It is reported
here in official circles that the State
Department is preparing to issue an
ultimatum to Colombia requiring a
reply in ten days, otherwise all ne-
gotiations for a Panama route will
come to an end and the Nicaraguan
will be chosen. Colombia, after all
the minor details had already been
agreed upon, demanded \$500,000 more
rental per annum than the United
States believed fair. In addition to
this, Ambassador Herron had never
been given the full authorization nec-
essary to conduct the negotiations.

Minor Details Are Agreed On.

Later, Secretary Hay held a long
conference with Ambassador Herron
this morning, and afterwards it was
announced that all minor details had
been agreed upon. The rental de-
manded by Colombia is \$650,000 annu-
ally. This concession gives the
United States ownership of the rail-
way at the end of 60 years, and in-
cludes Colombia's claims of revenue
derived from the railway, which is
\$200,000, also lighthouse fees, harbor-
age and docking free from Colon to
Panama, amounting to \$450,000 annu-
ally, all this to be pocketed by the
United States in case of its ownership
of the railway and canal. Secretary
Hay, when the matter was placed in
this light, admitted the justice of the
claim, and steps will be taken im-
mediately to verify the figures.

A NEW GAS RANGE.
For your kitchen will make you
laugh at the high prices of
wood. After you have used it a
short time you will wonder why
you sweated over a hot wood
range during the heated term,
or was worried over starting a
fire on a Winter's morning,
when a touch of a match makes
a bright blaze, confined to your
cooking utensils, and not heat-
ing your house for the whole
day. Try cooking by gas.
